MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Computer Network Security

1. REFERENCE. AR 25-2, Information Assurance, 14 November 2003.

2. APPLICABILITY. This policy applies to all Fort Hood units and tenant activities that utilize computer systems on the Fort Hood network.

3. POLICY. In order to assure security of the Fort Hood Network, commanders, senior executives, and managers will ensure compliance with the following:

a. All Installation Local Area Network (ILAN) users must log into the Hood domain.

b. All network devices, whether wired or wireless, connected to the network or standalone, will comply with the Department of the Army published Information Assurance Vulnerability Management (IAVM) directives and network security procedures.

c. Failure to follow any of the above procedures and proper security policies and regulations for accessing an Internet/Intranet website(s) will result in immediate suspension of network access and privileges until compliance is confirmed.

d. Telephone and ILAN subscribers are responsible for the proper use of equipment. Under no circumstances will a subscriber move, alter, place an attachment on, or make any additions to official telephone or ILAN equipment, to include, but not limited to, hubs, routers, switches, and any multi-port devices.

e. The Directorate of Information Management will:

(1) Establish standardized patch management policies, procedures, and tools.

(2) Maintain a network security webpage at http://www.hood.army.mil/doim where the latest notices, patches, updates and service packs will be located for easy access.

(3) Proactively monitor the network for new vulnerabilities and patches for all software and hardware identified in the network.

(4) Conduct risk assessments and report findings as required by regulation.

4. EXPIRATION. This Fort Hood Command Policy Memorandum supersedes the 2 April 2004 policy and will remain in effect until superseded or rescinded.

RAYMOND T. ODIERNO
Lieutenant General, USA
Commanding
