Obtaining GTAs

http://155.217.58.58/atdls.htm

GTA Library

Although this site says GTAs can be ordered on-line, this is incorrect. GTAs can only be downloaded and/or printed from digital files contained on this site. Attempting to order on-line will only delay requests, which ***must be made*** at the Fort Hood VI Service Center, Bldg. 230. Come by the Ft. Hood VI Service Center and see what GTAs are still available. GTAs out of print can only be obtained by downloading and printing from this site. Some non-paper GTAs (plastic devices, oversized charts, games, etc.) are loan items and may require that the requestor be on a signature card and require FHT FORM 25-X22.

Document Formats

The Library uses Hypertext Markup Language (HTML) as its primary document format for on-line viewing. HTML can be viewed by all WWW browser software. It requires no special configuration or installation of special viewers or "plug-in" so users are encouraged to keep their WWW browsers current.

Obtaining DoD Training Videos and Interactive Multimedia Instruction

The Defense Automated Visual Information System/Defense Instructional Technology Information System (DAVIS/DITIS) site is located at *http://afishp6.afis.osd.mil/dodimagery/davis*.

DO NOT print out requests for videotapes and bring it to this TSC for service. Send the request directly to Joint Visual Information Services Distribution Activity (JVISDA) and receive Video Media by mail from them.

Take the EST Lane to Marksmanship Success!

Charles Rosenblum
Marketing Specialist

Would your unit benefit from training that provides realistic scenarios for 12 of the most common small arms and crew-served weapons and individual anti-tank weapons in the Army inventory?

Would your soldiers benefit from training on a simulator that provides the feel, weight, recoil, fit and sounds of the real weapon in your train-up schedule?

Well soldier, TSC has an offer you can't refuse. It's the Engagement Skills Trainer (EST) 2000 and it's here today at your Fort Hood TSC.

> Shown below, the EST 2000 provides multi-purpose, multilane, individual marksmanship, unit collective gunnery and tactical training for static dismounted Infantry, Scout, Engineer, Military Police Squads and Combat Support/Combat Service Support elements.

> The EST 2000 provides the capability to build and sustain marksmanship skills for squad and team fire distribution. It also contains control and judgmental use of force training with computer-generated imagery.

> The system supports the: M16A2 Rifle, M4 Carbine, M9 Pistol, M249 Machine Gun, M60 Machine Gun, M240B Machine Gun, M2 .50 caliber Machine Gun, MK19 Grenade Machine Gun, M203 Grenade Launcher, M136 Anti-Tank Weapon, and the M1200 Shotgun.

> A computer generates targets, terrain and weapons effects in a real-time 3-dimensional display that also includes OPFOR weapons and sounds.

Well all that sounds great. Right? How do you get started?

Simply call Mr. Jim Hagler at 287-3374 to schedule your unit.
