

RANGE OPERATIONS INSPECTION CHECKLIST

(FOR USE OF THIS FORM, SEE AR 385-63; DA PAM 385-63; DA PAM 385-64; AR 710-2; AR 190-13; FH REG 350-40; & FH REG 700-15. PROPONENCY FOR THIS FORM IS DPTMS.)

SECTION I - FACILITY INFORMATION

1. RANGE FACILITY:	2. DATE:
3. UNIT:	4. INSPECTOR:

SECTION II - GENERAL RANGE INSPECTION

Y / N	
	Are the OIC and RSO on the range performing their assigned duties?
	Are the Range Book, OIC Remember Sheet, SDZ, and Mimimum Safety Requirements sheet on hand? Note: SDZ and Minimum Safety Requirements sheet normally pertain to a multi-use range.
	Is a back up radio present and turned off? Note: Need 2 radios on range without a radio in tower.
	Is the unit level risk assessment complete and signed by the proper authority?
	Is a medical evacuation vehicle on site?
	Did OIC and RSO give a Range Orientation and Safety Briefing?
	<i>Are adequate safety measures in effect to observe and control day and night firing?</i>
	Are POVs in the vicinity of the range? Note: Any POV must have a range pass.

SECTION III - AMMUNITION INSPECTION

	Is a person who signed for all ammunition on hand on a DA 581 or DA 5515 and located at the ammo point? Note: DA 5515 is used as a hand receipt from parent unit to subordinate units or from one person to another. (For example, BN to CO; CO to PLT; or CO to CO if in the same BN, etc.)
	Is ammo on hand an operational amount that is not excessive and, if excessive, has this been approved by the Range Control Safety Officer?
	Is ammo on the range only for authorized weapon systems and opened only as needed?
	Is DA Form 3020-R being used to account for ammo by DODIC and lot number?
	Is ammo being stored the proper distance from roads, buildings, flammable materials, and in a manner that minimizes the potential for ignition, explosion, or detonation? Note: Distance for ammo through .50 Caliber is 100 feet and ammo larger than .50 Caliber is 400 meters.
	Is ammo and dunnage being stored in a manner that is physically separate?
	Is ammo off the ground, covered with canvas or in an ammo shed protected from the elements, and receiving air circulation? Note: Pallets are acceptable in open areas.
	Are 4 each "no smoking within 50 feet" and a "restricted area" sign properly posted? Note: "No smoking" signs must be seen from all directions and restricted area sign posted at entrance.
	Are there 2 serviceable 10BC or better fire extinguishers present?
	Is concertina wire erected IAW current policies? Note: 1 roll is required if training is for 24 hours or less; 3 rolls if training is more than 24 hours.
	Does ammo point have a means of communication other than voice response? Note: Can be a field phone, radio, messenger, or whistle.
	Is a daily inventory of ammo being conducted by a disinterested person? Note: Must be a person not in the direct line of supervision of the person who signed for the ammo.
	Are Soldiers briefed on the use and turn in of ammo and checked for "no brass or ammo?"
	Does the unit have the proper ammunition for range conditions? Note: No de-linking of ammo.
