

ECAT Customer Service

Our Environmental Compliance Assessment Team (ECAT) consistently provides our customers with assistance when requested. Recently, 1st Air Cav Brigade and HAAF requested assistance to evaluate their environmental performance for an upcoming IMCOM inspection. Two ICE comments were submitted.

“We (the Brigade) appreciate his assistance to meet a short suspense prior to the inspection. He is a credit to the DPW Environmental Team and an asset to Fort Hood's tenant units.”

“Kudos as well to David Morgan, his assistant who stuck with us all day and aided with the disposal of our contaminated waste. Such selfless service is certainly uncommon.”

This is just a small example of the many services ECAT and DPW ENV provides to our customers.
