

# Positive ICE Comment

**DPW employees, Trung “Pierre” Bui and Don Young, West Area Shop, received the following positive ICE comment on 5 March 2104:**

*“The (MTC) Mission Training Complex, is currently in full support of 1 CAV's UE 14-2 exercise. The exercise is a critical step in preparing 1 CAV for upcoming deployment. A few electrical requirements needed for 1 CAV were addressed, and sent immediately to DPW service order department. Upon receiving the request, Shop 93 supervisor Don Young and electrician Pierre also from shop 93, ensured the electrical request were coordinated and completed. Both Don and Pierre went above their normal work scope, to ensure 1 CAV had all the electrical requirements needed in support of exercise. All work done was completed, and professionally installed. Job well done!!!”*

***Mr. Bui and Mr. Young demonstrate commitment to professionalism, customer service, and our mission and vision.***

**WE ARE DPW!**
