

M16A2 RIFLE BRASS DEFLECTOR

Functional Description:

DVC-T 23-030B, M16A2, Rifle Brass Deflector, is a palm size plastic device designed to deflect expended M16 brass downward from the marksman. The device snaps securely into the hole in the top of the carrying handle by means of a bullet catch. It is a low cost, durable, lightweight device which can be rapidly inserted and removed from the weapon.

Purpose of Trainer:

The M16 Rifle Brass Deflector protects the left-handed marksman from being struck by heated expended brass.
