

M16A2 SIGHTING DEVICES (Right)

Functional Description:

DVC-T 07-084B/R, M16A2, Sighting Device, is a metal frame that is attached to the rear of the rifle carrying handle. This device is issued for right-handed shooters. A piece of smoked Plexiglas is inserted in the frame to allow a coach to view the firers aiming point. This device slips onto the rear of the carrying handle for the M16A2 rifle. When the shooter looks through his sights, the coach, positioned alongside the shooter, can look at the reflection on the tinted glass and view the same picture. This device is also known as the cheater or Belgian Sight.

Purpose of Trainer:

This device allows coaches to insure that soldiers are aiming correctly at the targets.
